## **blinckmann CAMPUS - learn English anytime and from anywhere!**

By using the blinckmann Online CAMPUS, you can learn Business English at your own pace and with flexible timing, which allows you to quickly increase your foreign language skills.

We offer you an online learning platform that both challenges and encourages you, linguistically, economically and culturally – in private study and in a virtual classroom, as individual or small group teaching (a maximum of three participants).

From EUR 26.00 per month, you will learn

- ✓ to sustainably expand your vocabulary,
- ✓ to enlarge, consolidate and further develop your grammar,
- ✓ to confidently master the language of your correspondence with customers and suppliers,
- ✓ to create and make a convincing presentation,
- ✓ to prepare for and professionally lead a meeting,
- ✓ to purposefully manage a project,
- ✓ to prepare for a negotiation and bring it to a successful conclusion.

You determine your own learning speed, e.g. 1-2 hours per week. You can cancel at the end of the month if you are not satisfied – so you are always flexible. Ask your employer whether he or she will support you in this further training by granting you free time or financial support.
